Purpose

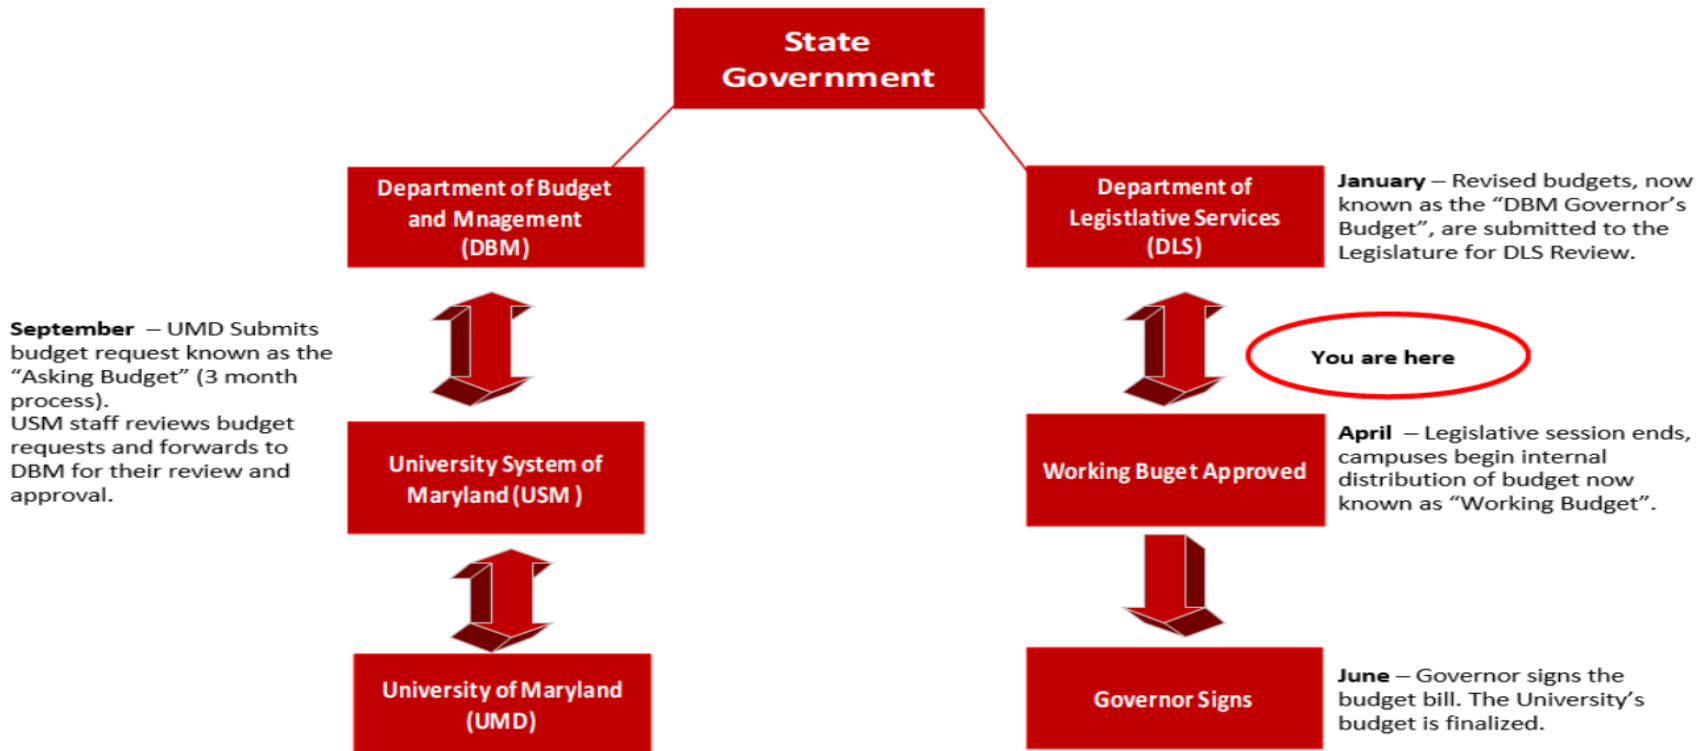

- The purpose of this training is to provide campus units with a high-level overview of the State of Maryland annual budget cycle, along with UMD budget cycle.
- In addition, we will cover the information needed to prepare a basic operating budget that will assist in preparing the annual working budget.

Annual Budget Cycle: Overview

- As a State Agency, certain budget priorities for UMD are set by State of Maryland and Board of Regents. For example Tuition and Salary Increases.
- The University of Maryland coordinates with USM in developing and presenting the annual operating budget to the Board of Regents (BOR), the Department of Budget and Management (DBM) and Department of Legislative Services (DLS).
- The Maryland State Legislature approves UMD Annual Capital & Operating budget.

Annual Budget Cycle: Overview

UMD BUDGET CYCLE

Working Budget

The UMD Budget Fiscal Period is July – June

The UMD Working Budget Cycle: February - June

February/March

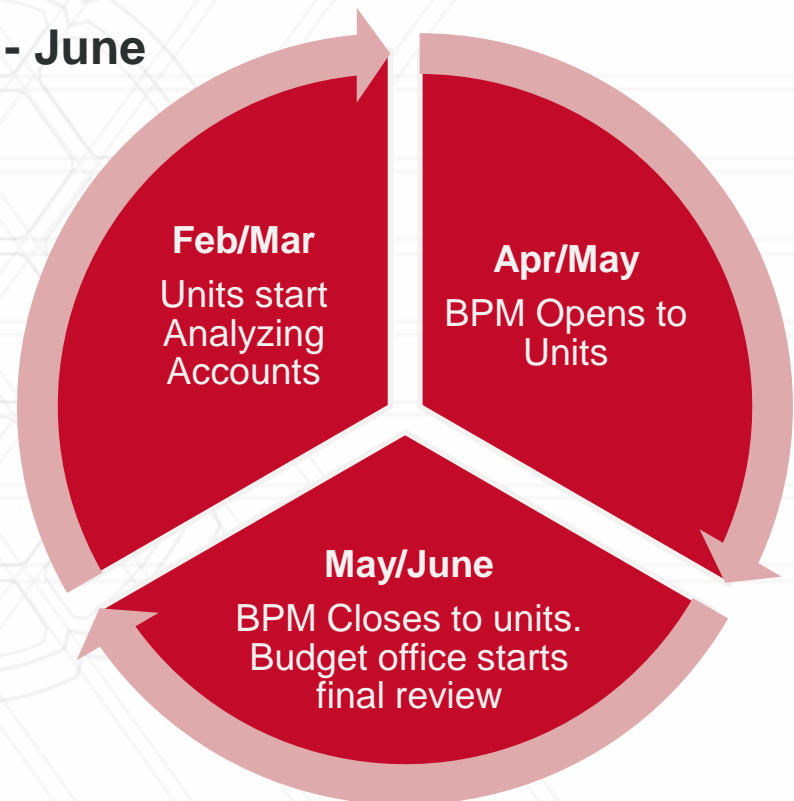

- Units should start analyzing accounts by reviewing prior fiscal year end data and forecasting current fiscal year data to help assist in preparing the future fiscal year budget.

April/May

- The Budget Preparation & Maintenance (BPM) system opens to all users.

May/June

- The Budget Preparation & Maintenance (BPM) system closes around late-May so the Budget office can complete the final review.

Budget Overview: Budget & Purpose

What is a Budget?

- A budget can be defined as an estimate of expected income and expenses for a specified future period of time and based on the prioritized needs of an organization. It is monitored on a periodic basis and re-evaluated on an annual basis.

What is the purpose of a budget?

- To Plan – preparing for the future
- To Communicate – operational/programmatic expectations
- To Allocate – amongst competing demands within an organization

Budget Overview: UMD Revenue

The University of Maryland's budget is supported by revenue from a variety of sources which include:

Unrestricted Funds

- State Appropriation
- Tuition & Fees
- Government & Private Gifts/Grants
- Auxiliary
- Sales & Service of Educational Activities
- Other Sources

Restricted Funds

- Federal Grants & Contracts
- Private Gifts, Grants & Contracts
- State & Local Grants & Contracts

Budget Overview: UMD Budget Model

The University of Maryland follows an Incremental Budgeting method

- Incremental Budgeting is a base budget determined or carried forward from the prior year. It is then adjusted incrementally up or down depending on changes in operating costs as well as expected additional needs driven by enrollment increases or plans for new or expanded services.
- The UMD Annual budget includes **Unrestricted** accounts (Subfunds that begin with 40).

These accounts as well as **Restricted** accounts are further broken down by Federal Function code (program). It is important to budget in the applicable *Subfund and Federal Function code. Examples of federal function codes used by an academic unit would be:

- 1 – Instruction
- 2 – Research
- 3 – Public Service
- 4 – Academic Support

* For more information on Subfund Groups and Federal Function Codes, please refer to the reference guide at the end of the presentation.

* Based off your departmental needs, evaluate which of these additional systems will require access.

Preparing An Operating Budget

At the University of Maryland we budget at the Account level by Object code (subcode), and once complete the budget must balance to zero. Also, all budgets should be created at the account level that you plan to expend the funds.

The first steps to preparing your operating budget is as follows:

- Identify Sources of Revenue

- Identify Expenses
 - Actual Operating Expenses (KFS)
 - Identify Budget Data (BPM)

- Identify Non-Mandatory Transfers

Identify Sources of Revenue

The most common sources of revenue include the following:

- State Funds
 - State Appropriation
- Auxiliary Funds
- Grant Funds
 - State, Federal, Internal
- Student Fees
- Gifts (Foundation Funding/Spendable Income)
- Registration/Program Fees
- Growth/Use of Fund Balance

* Please note there are a variety of Revenue codes, we are just identifying a few of the most common ones used amongst Divisions.
