To All BPM Users:

The Budget Preparation and Maintenance System (BPM) will begin using the University of Maryland’s Central Administration Service (CAS), which requires multi-factor authentication (MFA).

To accommodate this change, the BFA website link and BPM menu screen will be modified this afternoon before 2020 working budget opens to divisions. On the BFA main page, there will be a single link to BPM.

Users will first be directed to the Central Authentication Service (CAS) login screen, which requires multi-factor authentication (MFA).
After authentication, a new BPM menu screen with selection options for “Fiscal Year” and “Select Budget System”.

Welcome to Budget Preparation and Maintenance System

If you have already logged in and authenticated by University of Maryland Central Authentication System, then you will be taken to BPMS Main Menu. Otherwise, you will be directed to Central Authentication System for you to login. After successful login, you will be directed to BPMS Main Menu.
To access the BPM Training Manual and Forms you can click on the link below.
Once you click on the training link you will have access to the manual and technical reporting forms below.

If you have bookmarked the BPM site, you may need to update the link for the new menu screen. If you have any questions, please contact bfa@umd.edu. Thank you.
